### Academic Distributing Inc. Welcomes Eduss

Dewey, AZ—June 15, 2006— Academic Distributing, Inc. (ADI) is pleased to welcome Eduss, an award-winning, international company that provides an educational software system that fulfills core mathematics and English curriculum standards requirements. Eduss tests, evaluates, and teaches children and adults with minimal human input, in a range of core educational and life-skills subjects.

The Eduss software system strives to support school principals with the very best in product, teacher training, and student outcomes. Eduss is implemented into the school's network offering educators and student's access to excellent programs in English, math, phonics and language. Continue...
