

Innovation in education

EDUCATIONAL Software Solutions Company, EDUSS, has gained international recognition following the installation of its software solutions in more than 2000 schools and 10 000 homes throughout Australia.

The same solutions have also been installed in more than 500 schools and 1500 homes in countries including the United States, Philippines, New Zealand, South Africa and the United Kingdom. The company has partnered with various international strategic alliance companies and is making strong headway into the Asian markets.

The company has recorded 107 per cent growth in the last year and recently launched its new EDUSS Server Solution to schools. The program was developed to offer

Children studying Eduss' educational packages

schools a comprehensive content solution, which can ultimately be extended into every student's home. Software installed on the server includes the EDUSS maths, English and phonics IMTA systems. Every EDUSS Server Solution also comes pre-loaded with six language market products in German, French, Italian, Indonesian, Japanese and Chinese.
