**EDUSS MATHEMATICS SPECIAL OFFER**

Eduss would like to thank the parents and teachers for the excellent support they have received. As a special offer they have agreed to extend the \$200 discount to 31 December 2003. These are not just game based software programs. They are a personalised tutoring program which can automatically assess, report, remediate and extend your children. These programs cover every Maths and English subject your child will encounter from Grades 1 to 8. Many of the best schools in the nation including high schools now use this software. If your children had difficulty last year this software will improve their ability without having to pay for tutoring or software programs with fewer features costing several thousand dollars. Total cost of \$175 each or \$325 for both with full money back guarantee. There are easy payment plans also available. Please contact Eduss direct on 1800 334 633.
