**EDUSS Education Software Solutions announces agreement with TechMission to donate software to affiliate members.** Eduss is a leading international developer of Math, English, and Phonics software for K-12 schools. The Eduss software is the world's first ever developed IMTA, Integrated Multidimensional Teaching Assistant. Eduss software empowers teachers and parents to pinpoint where learning stopped and - through a step-by-step process - level set and accelerate the child's competency in Math, English, Phonics, and Languages. **The Eduss Software is FREE/Discounted\* through TechMission Membership! Organizations with a budget of less than \$2,000,000 can get a free copy of the software but will receive no technical support from Eduss. Organizations with a budget of more than \$2,000,000 will pay a discounted rate of \$3750 in full or by installment and receive a server and technical support from Eduss.**

CLRN APPROVED

THE COMPLETE MATHEMATICS IMTA

**Putting all the pieces together.**

EDUSS will test and evaluate your child's understanding of mathematics for their year level. The system will automatically compile a personal learning schedule for your child to follow, addressing the problem areas highlighted by the evaluation test.
